

Table of Contents

Foreword	xiii
About the Author & Contributors	xv
Introduction	xvii
Chapter 1: The Working Drawings	1
The Role of the Drawings	1
Design Development	1
Organization of the Working Drawings	2
Graphic Formats Used in Drawings	5
Drawing Conventions	7
Conclusion	12
Chapter 2: Understanding the Specifications	13
The Role of the Specifications	13
Organizing Specifications by CSI MasterFormat	14
The Project Manual	19
Conflicts Between Drawings & Specifications	26
Modifications to the Contract Documents	27
Conclusion	29
Chapter 3: Calculating Linear Measure, Area, & Volume	31
Units of Measure	31
Decimal Equivalents	31
Linear Measurement	32
Area & Square Measure	34
Volume & Cubic Measure	37
Conclusion	39

Chapter 4: The Quantity Takeoff	41
Reviewing the Documents	41
Beginning the Quantity Takeoff	42
Rules to Follow for Accurate Takeoffs	43
Accounting for Waste	47
Other Factors that Affect Quantities	50
Pricing the Estimate	50
The Unit Price Estimate	54
Pricing the Quantities	58
Submitting a Bid	59
Conclusion	60
Chapter 5: Understanding Material & Labor Costs	61
Materials	61
Labor	62
Indirect Overhead	67
Profit	68
Conclusion	68
Chapter 6: General Requirements	69
Fixed & Variable Costs	70
Collecting General Requirements Cost Items	72
Applying Prices to General Requirements Items	73
Conclusion	73
Chapter 7: Site Construction	75
Civil Drawings	75
Subsurface Investigation Reports	77
Site Preparation	77
Excavation & Backfill	78
Hauling	86
Rock Removal	87
Piping & Precast Structures	87
Underpinning	89
Paving & Subbase Preparation	89
Curbing	91
Dewatering	92
Landscaping & Irrigation	92
Site Improvements	93
Miscellaneous Considerations	93
Demolition	94
Conclusion	95

Chapter 8: Concrete	97
Concrete Materials	98
Ready-Mixed Concrete	99
Formwork	99
Flatwork	108
Expansion Joints	109
Control Joints	110
Curing	111
Reinforcement	112
Precast Concrete	116
Cementitious Decks	117
Embedded Items	117
Vapor Barriers	118
Conclusion	118
Chapter 9: Masonry	121
Mortar	122
Brick	126
Concrete Masonry Units (CMU)	135
Stone	138
Masonry Reinforcement	142
Grout	145
Masonry Anchors & Ties	147
Masonry Restoration	148
Masonry Cleaning	150
Masonry Insulation	150
Flashings	151
Cutting Masonry Units	152
Formwork for Masonry	152
Items Furnished by Other Trades	154
Control Joints	154
Incidentals for Fireplace & Chimney Construction	155
Freight of Masonry Units	156
Staging & Scaffolding for Masonry Work	157
Cleanup	157
Conclusion	159
Chapter 10: Metals	161
Structural Steel	161
Open-Web Steel Joists	166
Metal Decking	168

Light-Gauge Metal Framing (LGMF)	171
Studs & Track	173
Miscellaneous & Ornamental Metals	174
Miscellaneous Costs	180
Conclusion	181
Chapter 11: Wood & Plastics	183
Rough Carpentry & Framing	184
Finish Carpentry	208
Architectural Millwork	210
Casework & Cabinetry	211
Conclusion	214
Chapter 12: Thermal & Moisture Protection	215
Waterproofing	215
Dampproofing	217
Insulation	218
Vapor Barriers	220
Air Infiltration Barriers	221
Exterior Siding	222
Roofing	225
Firestop Systems & Sprayed Fireproofing	244
Conclusion	245
Chapter 13: Doors & Windows	247
Architectural Drawings	247
Hollow Metal Frames & Doors	252
Wood Doors & Frames	254
Sliding Glass Doors	256
Special Doors	257
General Notes on Doors	259
Overhead & Coiling Doors	259
Entrances & Storefronts	260
Wood & Plastic Windows	263
Metal Windows	264
General Notes on Windows	264
Finish Hardware	265
Glass & Glazing	267
Conclusion	269
Chapter 14: Finishes	271
Plaster Systems	272
Gypsum Wallboard Systems	273

Metal Stud Framing & Furring	274
Tile	279
Acoustical Ceiling Systems	283
Flooring	289
Painting	296
Wallcoverings	300
Conclusion	306
Chapter 15: Specialties	309
Conclusion	311
Chapter 16: Equipment, Furnishings, & Special Construction	313
Equipment	313
Furnishings	315
Special Construction	316
Conveying Systems	316
Conclusion	317
Chapter 17: Mechanical Systems	319
Fire Protection Systems	320
Plumbing	322
Heating, Ventilating, & Air Conditioning (HVAC)	335
Conclusion	344
Chapter 18: Electrical Systems	345
Raceways	347
Conductors & Grounding	347
Wiring Devices & Boxes	349
Starters, Boards, & Switches	351
Lighting	353
Special Systems	354
Equipment Hook-ups	354
Miscellaneous Electrical Work	357
Electrical Labor	358
Conclusion	358
Chapter 19: Estimating by Computer	359
Estimating Software	360
Project Overhead Summary Sheets	367
Conclusion	367

Chapter 20: Profit & Contingencies	371
Profit	371
Contingencies	376
Conclusion	378
Estimating Resources	379
Unit Cost Estimating	379
Using Cost Databases & Means <i>Contractor's Pricing Guides</i>	380
Conclusion	383
Index	385
